2014 – 2015  
Artists In School  
Residency Program

## How a Residency provides an authentic arts encounter for your students

We deliver a full-scale, interactive, theatrical learning adventure. Whether you are extending a particular curricular area, need to provide personal development opportunities for your students, or simply want to skyrocket your school spirit, our artists nurture students and teachers through the experience of the creative process.

Together we interpret, generate and develop a performance. Our passionate team of artists know the importance of teamwork, creation, confidence building and celebrating student work. The performance on the final day, which includes set, lights, sound and costumes, is part of an experience that continues to be a catalyst for learning long after we are gone.

## Residency Options

No matter the area of learning you are hoping to enrich for your students, Quest has a residency that will work with your school's needs and plan for the year. Talk to us about what you are hoping to achieve and we can point you to a residency that is perfect for you.
